Supervisors must meet the criteria set forth within the WA State HIV Case Management Standards and provide the level of interaction and review detailed in that document.

It is the understanding of DOH that Supervision funded under the direct program portion of this contract include at minimum the provision of at least two of the three functions detailed here: administrative, educational or supportive supervision. Special Instructions

Task 1

Trained LHJ staff will evaluate the water system for physical and operational deficiencies and prepare a Final Sanitary Survey Report which has been accepted by ODW. Detailed guidance is provided in the *Field Guide for Sanitary Surveys, Special Purpose Investigations and Technical Assistance* (Field Guide). The sanitary survey will include an evaluation of the following eight elements: source; treatment; distribution system; finished water storage; pumps, pump facilities and controls; monitoring, reporting and data verification; system management and operation; and certified operator compliance. If a system is more complex than anticipated or other significant issues arise, the LHJ may request ODW assistance.

- No more than 8 surveys of non-community systems with three or fewer connections be completed between January 1, 2022 and December 31, 2022.
- No more than **34** surveys of non-community systems with four or more connections and all community systems to be completed between January 1, 2022 and December 31, 2022.
- No more than **3** surveys of non-community systems with three or fewer connections be completed between January 1, 2023 and December 31, 2023.
- No more than 25 surveys of non-community systems with four or more connections and all community systems to be completed between January 1, 2023 and December 31, 2023.

The process for assignment of surveys to the LHJ, notification of the water system, and ODW follow-up with unresponsive water systems; and other roles and responsibilities of the LHJ are described in the Field Guide.

Task 2

Trained LHJ staff will perform Special Purpose Investigations (SPIs) as assigned by ODW. SPIs are inspections to determine the cause of positive coliform samples or the cause of other emergency conditions. SPIs may also include sanitary surveys of newly discovered Group A water systems. Additional detail about conducting SPIs is described in the Field Guide. The ODW Regional Office must authorize in advance any SPI conducted by LHJ staff.

Task 3

Trained LHJ staff will conduct Technical Assistance as assigned by ODW. Technical Assistance includes assisting water system personnel in completing work or verifying work has been addressed as required, requested, or advised by the ODW to meet applicable drinking water regulations. Examples of technical assistance activities are described in the Field Guide. The ODW Regional Office must authorize in advance any technical assistance provided by the LHJ to a water system.

Task 4

LHJ staff assigned to perform activities under tasks 1, 2, and 3 must be trained and approved by ODW prior to performing work.

If required trainings, workshops or meetings are not available, not scheduled, or if the LHJ staff person is unable to attend these activities prior to conducting assigned tasks, the LHJ staff person may, with ODW approval, substitute other training activities to be determined by ODW. Such substitute activities may include one-on-one training with ODW staff, co-surveys with ODW staff, or other activities as arranged and pre-approved by ODW. LHJ staff may not perform the activities under tasks 1, 2, and 3 without completing the training that has been arranged and approved by ODW.
