

Title:	Water Status Reports Applicability	Page 1 of 1
Number:	[Administrative] Policy DW-02	Effective Date: March 4, 2019
Applies To:	Water Status Reports for Private & Group B Water Systems	Supersedes: N/A
Approved:	John Kiess, Division Director	Next Review: As Needed

A. Purpose

The purpose of this policy is to clarify the Water Status Report requirements for undeveloped properties or properties with a new structure.

B. Policy Statement

The following policy shall guide Health District staff and applicants when a water status report will be required in accordance with Section 9 of the Regulations.

C. Implementing Procedures

1. A Water Status Report application will not be required at the time of property conveyance in the following situations:

- a. Undeveloped property with a well located upon the property parcel; or
- b. Undeveloped property that is designated as a future service connection for a 2-party private water supply located on another property parcel; or
- c. Undeveloped property that is designated as a future service connection in the approved design for a Group B public water system; or
- d. Developed properties with structures or buildings which have never been occupied.

D. Policy Review History
